## In View: Designer Mixes

By Dean Bemis, Broker Account Manager, Syngenta Flowers, Inc.

Syngenta Flowers offers recipes for ready-to-plant designer mixes:

**Impatiens Xtreme™ Tango Mix**—on a hot summer day, what could be better than a cool mix of Scarlet, Red, Rose, Deep Salmon and Violet impatiens for that shady spot! Use this designer mix where people can get up close and personal with the flower bed... a very peaceful and calming mixture.

**Nicotiana Saratoga™ Buzz Mix**—in this unusual mixture the harmonizing colors of Purple Bicolor and Deep Rose contrasts sharply with the brightness of Saratoga Lime! Everyone knows Saratoga Nicotiana performs well in the sun... but most designers are not aware of Saratoga's stellar performance in full shade...try it!

**Trailing Petunia Ramblin'™ Cool Berry Mix**—with just two colors in a basket, Ramblin Cool Berry mix proves less really is more! The Burgundy and Lavender mixture cools the sunniest spot in the Colorscape. Also, try using in large baskets! Alternate each color around the outside of the basket for uniformity and proper color balance.

NEWSLETTER FOR THE PROFESSIONAL LANDSCAPER

**Zinnia Magellan™ Persian Carpet Mix**—the mixture of elegant flowers offers double the harmony and double the contrast! How? The colors of Cherry and Scarlet harmonize as does Coral and Orange... but these harmonizing duos contrast with each other! What a perfect mix for your largest full-sun beds and excellent for both 'walk-by' beds — or 55 MPH color.

**Verbena Tuscany® Pastel Mix**—this wonderful soft mixture has 'spring' written all over it! The warm colors of Peach, Pink Picotee and White contrast ever so slightly against the Tuscany Lavender Picotee. Tuscany Pastel Mix is perfect for a series of small accent beds that need to be tied together with a subtle design element. Excellent in antique planters!

**Lanai® Verbena Sprit Mix**—ask your grower supplier about Kwik Kombos® and especially the patriotic Lanai Sprit Mix! Lanai is a recognized industry leader when it comes to disease resistance and this red, white and blue mix makes the perfect combination planter for those Fourth of July family gatherings. Cascades of red, white, and blue color that will thrive in July ... and all summer long!
